

WHY VIRTUAL REALITY?

Here at the Heart Gallery, we believe that art is an important part of maintaining a healthy mind. We know first hand how difficult it can be to stay connected to the things we enjoy most during these unprecedented times. In light of the COVID-19 pandemic, we have closed our doors to visitors to protect your safety and the safety of our employees and volunteers. But, what is the purpose of art, if not to be appreciated? So, we've created a way for you and your family to continue to experience all that our museum has to offer, from the comfort and safety of your own home.
